B.S. Human Centered Software and UX Design

May 3, 2019 | GPA - 3.8 | Magna Cum Laude

Concentration in Healthcare and Disability
University Honors Distinction, Dean's List
Recipient of the Huntinton 100 award

Details

Innovation & Digital Health Accelerator | Boston Children's Hospital

Design the user experience for healthcare related projects, including consumer-facing tools and internal digital strategy solutions

Generate: Student-Led Product Studio | Northeastern University

Oversee day to day organization and function of Generate and organize future projects to ensure the organization's longevity

Express Scripts | St. Louis, MO

Design screens and create prototypes for Inside Rx - a website that provides uninsured patients with cash discounts on prescriptions

LiveData Inc. | Cambridge, MA

Design and create clickable prototypes for surgical scheduling, patient safety, and workflow software

Projects

THE GATHERING PLATE spring 2019

University Honors Interdisciplinary Thesis Project

A conceptual exploration into how a community-based food experience could benefit a children's hospital. Deliverables included research, brand, systems, interior, and UX design.

www.thegatheringplate.com

PEDIATRIC EDUCATION GAME spring 2018

Honors In College of Arts, Media, and Design Project

An exploration into pediatric patient experience in long term care and a proposed game solution that familiarizes children with their care in a comfortable and engaging way.
